Projects

Banking App
- Made an application with classmates to create a basic banking site page
- The application had a Sign Up and Login page as well as 3 pages that told a user how much money was in each of their 3 accounts, a page to transfer withdrawal and deposit, and a page to tell their transaction history

California Speed App
- Allows 2 users either on the same computer or different computers connect using web sockets to play a game at the same time with drag and drop, reshuffle, and winners

---

Activities and Leadership

Boy Scouts of America
- Contacted and worked with city officials to organize an Eagle Project to refurbish a compass course used by many local scout troops
- Instructed fellow scouts and adults in making compass markers, determining locations, digging up old markers and placing new markers
- Collaborated with Lowe's and American Stone for project materials

ReStore
- Worked with fellow classmates to do charity at ReStore by providing services to help with trash, moving heavy equipment and store items, and setting up displays
